## 1. **Mission Statement**

*The mission of providing the Ulysses School District Students with the 1 to 1 program is to create a collaborative learning environment for all learners. This environment will enable and support students and teachers to implement transformative uses of technology while enhancing students' engagement with content and promoting the development of self-directed, responsible, lifelong learners and users. Students will transition from consumers of information to creative producers and owners of knowledge. Technology immersion does not diminish the vital role of the teacher. To the contrary, it transforms the teacher from a director of learning to a facilitator of learning.*
